Indian Hills, Lincoln, Meadowlark, Newman, Riley, Rose Park, Uintah,
Washington, Whittier

Please

**Please Make Copies of These Sheets for All Involved,
Principal, Teachers, Media/Librarian, and Custodian. Thanks**

1. The Nursing Students from Westminster College will be doing these programs. The Nursing Students have been approved by the Salt Lake School District Human Sexuality Maturation Committee. They have been trained as per state guidelines. They know what to say and what not to say.
2. THE AIDS PRESENTATIONS ARE NOT OPTIONAL! You need to get out your permission slips ASAP! If you sent them out at the beginning of the year as part of your registration packet, you don't need to do it again. If you do not have a copy of the "Official Elementary School Permission Slip", contact CeCie Scharman's secretary (578-8252). You do not invite parents to these presentations. This program is not like the Maturation Program, where you send out invitations. Parents are welcome to come and observe, however. Make sure that you have a copy of the AIDS curriculum in the office for parents to view. It should be in the "White Loose Leaf Notebook" we sent you *years* ago. It is either in your office or the front office near your secretary. If you have lost your copy, get on line at: www.uen.org or www.usoe.k12.ut and print out a copy.
3. The AIDS Presentations are for the 3rd, 4th, 5th, and 6th grade classes. The curriculum is the same for the 3rd and 4th graders. The curriculum is the same for the 5th and 6th graders. Each program takes about an hour. We will need the auditorium or the multipurpose room. It is easier for the presenters to set

up in one place than to set up and take down several times. The nurses will be in your school for the entire day.

4. **PLEASE, ALL TEACHERS MUST STAY WITH THEIR CLASSES!!** Please ask your teachers to actively listen and take care of discipline problems. The presenters have enough to do to prepare and teach. Don't ask the nurses to do "Crowd Control" also. We have had situations where students have gone home and reported incorrectly what was taught. We need a teacher to verify what was actually taught.

5. **THE FILMS CONTINUE TO BE A BONE OF CONTENTION!!! Please be sure that your teachers discuss with the presenters at the beginning of the program which film they want shown.** Some teachers of the 6th Graders like the Whoopie film (especially if they have mature students and/or at risk students) and other do not. It is actually a Secondary School age film. IT TALKS ABOUT SEX! There are two films approved for the third and fourth graders and they both that mention the words "sex" and "sexual intercourse". Remember, these films have all been approved by the Salt Lake City School District Human Sexuality Maturation Committee and are part of the Utah State Film Consortium. We know the films are OLD, OLD, and OLD! But nothing new has come out for years!! The film helps cement what the presenters have taught...and is another teaching method.

6. **Please**The presenters will need the following in place at the beginning of their presentations:
 - Have chairs set up or have students bring their chairs to the presentation area/They get too restless if they sit on the floor.
 - A Large Table Up In Front, Center
 - A Screen
 - Computer or Laptop Computer hooked up to "The District System for a PowerPoint Presentation. The students have a password.
or
Computer or Laptop Computer. The students have a CD they can use.
 - LCD Projector
 - TV/VCR or VCR Projector

- Extension Cords If Needed
- A Microphone
- Four Chairs Around The Table
- Chalk or White Board & Markers, Chalk, Erasers
- Easel

Please, Please, Please

- Ask your custodian and media coordinator to set up.
- Ask them to plug in equipment, not just roll equipment into the auditorium or presentation area.
- Have them test to see that all equipment is functional.
- Don't ask the presenters to go and round this stuff up or run around trying to find extension cords and/or find where the outlets are or if there is power going to that outlet.

7. Questions? Contact Me! We'll Talk. Lynne Calame, RN, District Nurse
