

The Salt Lake City School District believes that our students cannot learn if their basic needs are not met. We address these unmet needs through our Family Support Program. This year we are highlighting our new dental program.

The Salt Lake City School District has partnered with Dr. Hal Whitney and Smart Smiles for Students to brighten the smiles and lives of thousands of Salt Lake City children. Dr. Whitney operates from a mobile dental trailer, a

53x8 foot dental clinic on wheels. The mobile dental clinic is equipped with four pediatric chairs where dental hygienists provide cleanings, fluoride treatments, and sealants. A separate office at the front of the trailer contains state-of-the-art equipment to provide fillings, crowns, and extractions.

As of March 2009, Dr. Whitney and his staff have treated over 3,000 Salt Lake City students and hundreds of family members. Over 70 percent of the students

have no private insurance but have received services through Medicaid funding or the generosity of donors like you. Thirteen elementary schools and two middle schools have

been serviced so far; and thanks to the help of ABF Freight System Inc. and Wheeler Machinery Co., the mobile dental clinic will visit each and every school in Salt Lake City.
