

K-8 Update for the Hillside and Clayton Feeder Areas

January 31, 2006

Thank you again for your continuing participation and thoughtful discussions at our schools and throughout our communities regarding the exploration of K-8 schools as an additional option for our students and families. A few schools are still collecting and reviewing their community input and have not submitted their final reports to the Board of Education. The Board Meeting scheduled for February 7, 2006, will include a brief K-8 update from the Superintendent, but no Board of Education discussion or action will take place. The Board's discussion regarding next steps will not begin until all neighborhood school team recommendations have been received and considered by the Board.

McKell Withers
Superintendent
