With the 2014 release of *Reading Inventory College & Career*, HMH and MetaMetrics (creator of the Lexile Framework) updated the Lexile ranges that comprise Below Basic, Basic, Proficient, and Advanced performance levels for each grade. To establish the performance levels, MetaMetrics conducted an extensive study of college and career texts so the score ranges would reflect increased expectations for college and career readiness and indicate whether students are on track to comprehend college and career level texts by the end of high school.
